

## **NEW! - Student Assistance Program** A Preventative Care Resource for International Students

The Ingle International Student Assistance Program is a new benefit feature that proactively aims to increase student health and wellness before health conditions escalate and require medical attention.

### **Through a custom online health navigation portal:**

#### **Receive Important Health Information**

- Flus and vaccines
- Migraines
- IBS
- Anxiety disorders
- Depression
- Smoking
- Alcohol and drug use
- Sexual health
- Natural products
- Medical conditions

#### **Benefit From Custom Features**

- Prescription drug database
- Assistance finding specialists, family doctors, dietitians, nutritionists, and chiropractors
- Ability to book appointments
- Assistance finding community support and peer support
- Information to help make healthy choices
- Travel health information
- Wellness tools

### **Students have access to a help information specialist line, staffed with medical professionals.**

*Ingle International connects diverse groups of individuals and businesses with the customized insurance products, services, and information they need for safe and healthy travels. Our expertise includes coverage for international students, expatriates, athletes, those at risk of kidnap and ransom, travellers entering war zones or other high-risk destinations, and all types of adventurers.*

*Novus Health offers an evidence-based, integrated, and comprehensive selection of health management and health navigation tools. With operations in Canada, the U.S.A., and Europe. Novus Health's products encourages employee and student health ownership and reduce health care costs.*
