Dear Mr. Riley:

Thank you for your well wishes regarding my appointment as Minister of Infrastructure and Minister of Transportation. I appreciate you taking the time to write.

As a new chapter begins in the story of our province, I look ahead with excitement and optimism at what the future will bring. Premier Notley is dedicated to honest, open government and to providing infrastructure that will strengthen Alberta's communities and serve the needs of Alberta's families. As such, I am honoured our Premier has entrusted me with the responsibility of building and maintaining the schools, hospitals, senior's facilities, roads, bridges and other public infrastructure essential to support our province's growth now and for future generations.

I look forward to working together to build on what we have today to ensure a strong, caring and prosperous Alberta tomorrow.

Yours truly,

Subject: Meeting Request - Fall 2015

Dear Board Chairs:

As the newly appointed Minister of Education, it is my goal to establish a collaborative relationship and to better understand each of your local contexts. To that end, I plan to arrange meetings with groups of public and separate school authorities and charter schools.

I am planning to begin these meetings in the fall of 2015 or early in 2016, depending on the schedule for the fall sitting of the Legislature, and giving due consideration to the school calendar.

The board chair and superintendent of each school authority will be invited to provide a brief review of their recent successes and challenges. In addition, I want to take this opportunity to discuss our government's intentions for education.

As I determine my schedule, my office will be in touch to make arrangements.

Thank you for your commitment to public education and to the students served by your board. I look forward to meeting with all of you.

Sincerely,

David Eggen
Minister

Dear Sir / Madam:

I am Lawrence Wu, the Hat High recipient of the Thelma Berkeley Robinson Memorial scholarship. I graduated a few weeks ago in the Class of 2015. It has been a wonderful twelve years attending school under the MHSD #76 banner. I am glad I had the opportunity to meet and learn from outstanding teachers throughout those years. Sometimes I still have to take a moment to realize that the first chapter of my life is done and that a new one will soon begin. I will be at the University of Waterloo in September, where I will be pursuing mechatronics engineering. Thank you for your help in making that chapter possible!

Sincerely,

—Lawrence Wu
