

June 4, 2021

To: School Divisions, Superintendents and School Leadership:

On behalf of Alberta Health Services Public Health, we would like to acknowledge our profound gratitude for the partnerships with School Divisions, superintendents and school leadership throughout the past 16 months. There was already a strong collaborative foundation built over the previous many years across South Zone; however, these months required daily partnerships at all hours of a day. The timeliness of communication and actions between the school system and public health was exemplary. Together we have achieved the safety of our students, the staff and the broader community.

Thank you for all the exceptional efforts during these months!

Sincerely,

Dr. Vivien Suttorp, MD, MPH, CCFP, FCFP, CCPE
Medical Officer of Health
Alberta Health Services, South Zone
