8. Policy and Procedures

Several policies, procedures and exhibits have been updated or newly drafted. Members of the group reviewed these changes in advance of the meeting.

Updates to policies 610 and 614 were also to improve wording as recommended by Alexandra Marshall from the University of Alberta, who provided a professional development opportunity for our staff regarding 2SLGBTQ+ students and community.

Tracy noted that 612 AP 004 was developed to clarify a process for Administrators to follow.

Motion to accept the updates to both the 500 and 600 section of policy as presented by Joni Hunter. All in favor.

9. Items for Discussion

Alberta School Council Association Funding

The Alberta School Councils' Association was denied government funding, once again, for 2022/23. The ASCA is asking that school councils utilize the Alberta School Council Engagement Grant funds to register in ASCA workshops. Early registration is encouraged.

Mark Davidson reiterated the importance of support for the Alberta School Council Association. The sessions and workshops are very informative.

Information on workshops and the Alberta School Council Engagement Grant can be found on the ASCA website [HERE](#).

The group discussed combining engagement grant funds to host a mini conference. JJ Kimber motioned that the schools pool funds to put on a mini conference.

The motion was amended: that the Division Council Chairs will discuss with their school council the idea of potentially combining the Parent Engagement Grant Funds to host a mini conference and report back to Chair Williams. Joni Hunter motioned. All in favor.

Presentation: Understanding Mental Health Needs for Children and Youth

Some of our school councils used their 2021-22 Alberta School Council Engagement Grant funding to partner with the Medicine Hat College and the Brandon Niwa Legacy Fund – The Beej Project. Those that attended the sessions provided a brief update to the group.

For the first session related to ages 6 to 11 there were 43 parents/caregivers in attendance and the second session for ages 12 to 18 had 80 parents/caregivers in attendance.

Tracy Hensel indicated that the neurosequential model discussed in the sessions has been part of our divisions work since 2018. The information was a bit clinical for a parent audience and most parents were looking for strategies. There were good discussions with parents following the sessions.

The follow-up sessions in November will be question and answer style. The Medicine Hat College will facilitate gathering questions from those that attended.
